**ABB, Inc.**

**ABB is a Technology-Based Provider of Electrical Power Products, Systems, Solutions, and Services.**

<b>Power Transformers</b>	Large & Medium Power Transformers, Small Power Transformers, Distribution Transformers Including Pole Type, Pad Mounted, and Underground
<b>Dry Type Power Transformers</b>	Medium & Low Voltage Dry Type Power Transformers (112.5 KVA-10 MVA+), VPI, VPE, Resiblock, Cast Resin and Cast Coil Transformers, Disconnect and Grounding Air Switches
<b>Power Circuit Breakers</b>	5 kV-765 kV Power Circuit Breakers, Generator Circuit Breakers
<b>Protective Equipment</b>	Intermediate & Station Class Arrestors, Reclosers & Breakers, Instrument Transformers, and Cutouts
<b>Distribution Switchgear</b>	Vacuum & Gas Insulated Power Circuit Breakers, Switchgear, SafeGear Arc Resistant MetalClad Switchgear, 5-27 kV MetalClad Switchgear, LV Secondary Unit Substations, Drawout Power Circuit Breakers, Gas Insulated Switchgear, Substation Breakers
<b>Low Voltage Systems</b>	Low Voltage Switchgear, Unit Substations, Low Voltage Motor Control Centers
<b>Relays</b>	ABB Relion Family, IEC 61850, Microprocessor Relays, for Protection, Control, Measurement, and Supervision of Power Systems. Also, Solid State and Microprocessor Distribution Protection Formerly ASEA, W, ITE & Brown Boveri Relays. HV Protection, Substation Control Relays and Communication & Relay Components. Arc Mitigation Relays & Systems.
<b>Power Quality</b>	Power Quality Systems, High Voltage & Low Voltage Power Capacitors, Specialty Capacitors, Harmonic Filters, Auto Power Factor Correction, Static Var Compensators
<b>Transformer Components</b>	Power & Distribution Transformer Components Including Bushings, Instruments, Gaskets, Tap Changers, Protective Links, Fuses
<b>Instrument Transformers &amp; Kulhman</b>	Instrument Transformers, Molded Current & Voltage Transformers 600V to 500KV
<b>Substations</b>	AC & DC Transmission Systems, Reactive Compensation, Station Electrics, Generator Breakers, GIS Switchgear
<b>Integrated Logistics Support</b>	Renewal Parts & Uprating Kits for Westinghouse Power Transformers, Power Circuit Breakers, GE Large Power Transformers, ITE Oil & SF6 Power Circuit Breakers, ASEA Power Transformers and Replacement Bushings, Out-of-Warranty Field Service
<b>Turnkey Projects</b>	Selected Projects Including Substations, Engineering, Equipment, Installation, Commissioning, Insurance, Financing, Project Management, Training, Maintenance
<b>ABB Service</b>	Complete Service Capabilities for All Transmission and Distribution Equipment, All Makes & Manufacturers

**BYRAM LABS**

Electrical Testing/Measurement Equipment  
& Automated Meter Reading Services

Complete Line of Metering Equipment for Commercial, Residential, and Industrial Use

Disconnect and Contactor Combiner Boxes for the Solar Industry.  
Available for Grounded and Ungrounded Systems through 400 amps and 1000VDC.

EXM has been an innovator in the field of enclosures for over 40 years, and manufactures to UL, CSA, NEMA/EEMAC, CE, and RoHS standards. EXM produces quality, competitive enclosures, consoles, wireway, cabinets, and accessories. In addition, EXM specializes in custom enclosures, utilizing their innovative online design tool, BoxCAD.

## SWITCHES - RESISTORS - CONTROLS

Since 1970 Filnor Inc. has designed and manufactured Electrical Products for a variety of Industries including Transportation, Steel, Aluminum, Utilities, Power Generation, Mining, Chemical, Paper, and Telecommunications.

Our offerings include Disconnect Switches for Isolation, Grounding, and Transfer; Open & Enclosed, 30 Amps to 10,000 Amps, up to 38 kV.

A complete line of Power Resistors for Neutral Grounding, Dynamic Braking, AC/DC Motor Acceleration, Load Banks, Ballast, and Transit. AC/DC Motor Controls for Cranes and Auxiliary equipment.

<http://www.filnor.com/>

Medium & Low Voltage Power Distribution Systems and Power Quality Solutions for the Industrial, Construction, Data Centers, and Utility Industries; Including Mission Critical Custom Integrated Power Systems.

<http://www.iemfg.com/>

Non-Segregated Phase, Metal Enclosed Bus Duct through 38KV, and up to 6000 Amp.  
Isolated Phase Bus Systems for Main Generator Leads, up to 50,000 Amps.

**MP HUSKY™**  
**CABLE TRAY & CABLE BUS**

**Custom Designed Heavy Duty Cable Bus Systems  
Available from 800 to 8,000 Amps and 600 volt through 69kV  
(SC only)**
